A VISIT TO THE DOMESTIC SCIENCE DEPARTMENT

The editor attended the morning session of the Teachers' Institute at the normal today, and while there availed himself of the opportunity to pay his first visit to the domestic science department of the normal.

Miss Ruble and her class were serving lunch to the visiting teachers, but the editor considering himself a sort of privileged character, walked into the room where the whole bunch were busy preparing dainty dishes for the teachers.

With deft fingers the girls were fixing up about a dozen different dishes and after a lunch of hot biscuit, pickles, beef, slaw, fruit salad and coffee we are in a position to testify to the good qualities of the cooking.

This domestic science which has become a part of our school work, is indeed a great advance in educational methods. It is education that educates the hand as well as the brain. The girls are thus taught the things that will be of use to them as long as they live and enable them to become all the more intelligent housewives. Furthermore, we have no hesitancy in stating that the department in the Ada normal is in most competent hands.

India Brought to Ada.

India and other foreign nations with their domestic and religious life will be brought to Ada next Friday. The occasion will be the visit of E. W. Allen, national secretary of foreign missions of Christian church, and some returned missionaries. Stereopticon and moving pictures will eloquently set forth the work in heathen lands. Every phase of missionary life will be acted out before your eyes.

The purpose of such rallies are to disseminate information and stir interest looking to the annual offering in March for foreign missions. They have greatly swelled the receipts for this ministry because the people realize so vividly the needs.

There will be an afternoon session at 2:30 and an evening session 7:30. It will be greater than a chautauqua.

Texas Sheriff is Slain.

Amarillo, Jan. 27.—Sheriff R. E. Martin of Hansford county was instantly killed last night sixteen miles from Texhoma after entering the premises occupied by P. P. Fifer, a ball passing near his heart.

Fifer is accused of the shooting and posses are searching for him in the brakes near where the tragedy occurred.

V. B. Daniels is in Holdenville for a few days on business.

ROFF MASONS WILL BE HERE THIS EVENING

The team of Roff Masonic lodge will be here this evening to confer the Master's degree on some candidates in the Ada lodge. A. L. Bullock is the Worshipful Master of Roff lodge and is about the best posted Mason in this section of the state. His team is also well drilled and can confer the degree as no other team in the county. The Ada lodge may count itself fortunate in thus having the opportunity of seeing some good work done.

WORKING TO SECURE ROAD LEGISLATION

State Association of Township Boards Draft New Road Laws.

Oklahoma City, Jan. 28.—New road laws and the defeat of the county assessor bill is the purpose of a meeting of the State Association of Township Boards which is holding its second session Friday afternoon in the offices of Wiley & Co. At the session Thursday afternoon strong resolutions condemning the proposed law doing away with the election of township assessors and creating the office of county assessor to be appointed by the governor were adopted and Friday afternoon additions were made to the resolutions which are even stronger in their wording than the original.

Friday afternoon a committee was appointed to draft new road laws, which will be presented to the legislature. The proposed bill does away with the office of road tax one that must be paid in cash and not by work on the highways.

In the bill which they will attempt to get the legislature to substitute for the one now under consideration doing away with the election of township assessor, the organization proposes a new method be adopted where by the assessor be informed of the valuation of the township before making his assessments and also that he be made a member of the board of equalization.

The Home Mission society will meet at the First Methodist church Monday afternoon at 3 o'clock. The parlors will be made comfortable and it is desired that there be a full attendance, as some important matters will be brought up.

TEACHERS HOLD MEETING

PONTOTOC COUNTY INSTITUTE HOLDS LARGE AND INTERESTING MEETING AT NORMAL.

The Teachers Institute of Pontotoc county met this morning at the normal with a large attendance from all sections of the county. The meeting was called to order by Supt. Pierce, and after the preliminary business had been disposed of the following officers were elected: W. T. Melton of center, president; J. E. Wales of Roff, vice president; Miss Pearl Scales of Francis, secretary and treasurer. It was almost noon before the organization was finally effected and all that could be carried out before adjournment for lunch was the address of welcome by Prof. Fentem and the response of Prof. Whitson of Stonewall.

Prof. Fentem made one statement that should be taken home by every teacher present, and that is the teachers of the county should look upon the normal as being home to them and their visits as simply a homecoming. Prof. Whitson, who is a new man in this county, responded that for one he would take that view of it.

Lunch had been prepared for the visiting teachers by the domestic science department, and for some little time the visitors enjoyed the hospitality of Miss Ruble and her girls. The lunch consisted of a number of different dishes and not just a hand-out. It was enough to give the visitors a fine impression of what the normal girls are capable of doing.

At the morning session the teachers given in the list below enrolled, but a number of others were present in the afternoon. The attendance struck us as being a most creditable showing for the teachers of Pontotoc county.

At the afternoon session W. T. Melton made a short talk on the relation of the teacher to the association. T. W. Robison addressed the meeting on the subject of systematic work on the

part of the teachers of the county. Mrs. G. H. Chance told of the school library at Fitzhugh, and C. W. Briles gave the teachers some good points on how to secure an increase of salary.

Supt. T. W. Robison of the Ada schools, was unanimously elected as delegate to the state association with Prof. M. L. Perkins as alternate. The delegate was instructed by a unanimous vote to do all in his power to secure the election of Prof. C. W. Briles to the presidency of the state association.

Other numbers on the impromptu program may have been given later, but this report embraces everything up to the time the paper went to press.

Arkansas Representative Says Kentuckian is Unfit to be in House.

Washington, Jan. 28.—"If the members of congress from Kentucky do not take action toward contesting the seating of Caleb Powers in the next congress, I will myself introduce a resolution to have the matter taken up," said Representative Macon of Arkansas today. "If the republican members of this house could not sit with Mr. Roberts of Utah because he was accused of being a polygamist, the democrats certainly cannot sit with a member who has been convicted on the charge of murder and who is enjoying his liberty only by the favor of a partisan state executive."

FIRST NATIONAL BANK STOCKHOLDERS MEET

The officers and directors of last year were re-elected today at a meeting of the stockholders of the First National bank, P. A. Norris, president; H. T. Douglas, vice president; M. D. Timberlake, cashier; and Ed Haraway, assistant cashier. The out-of-town stockholders present were P. A. Norris and H. T. Douglas of Shawnee and F. J. Phillip of Greenville.

The past year has been a prosperous one for this bank which through the uniform courtesy of its officers has won the confidence of the business men of this section.

JUDGE T. D. McKEOWN ON THE HUSTLE

Wewoka, Okla., Jan. 28.—The week ending today has been a busy one with Judge McKeown and the indicator has stood at high pressure every hour in the day. Court attaches have been kept on the jump while the grist was grinding. The result is nearly a dozen felony charges have been sustained and a like number of candidates for the penitentiary are waiting to be transported.

ADA GIRLS LOSE HOTTEST GAME OF THE SEASON BY SMALL MARGIN.

The great game of the season has been played and while we were the loser in point of score by a small margin, enough evidence of the efficiency of the local team to warrant the statement that it was in no respect inferior to the "Sooner" team. In fact the work of last night fully demonstrated the fact that the team is in much better condition than it has ever been in before and only a bit of hard luck due to the fact that our usually invincible forwards, Mace White and Willie Faust, having been prevented by sickness and injury from taking part in preliminary practice were a little out of form. The ball was for the most part in play about the Oklahoma goal. The score, 9 to 7, places the normal team in the class with the University and other schools of this grade in the state and establishes for the first time the school's claim to such classification.

The line up:
Oklahoma—Jean Tolbert, Ethel Ehnman, centers. Lucile Robeny, Olin Eagleton, forwards; Elizabeth Eagleton, Lottie Bohrer, guards.
Normal—Noble Kidd, Maud Brents, centers; Mace White, Willie Faust, forwards; Bernice Douthitt, Mary Kate Baker, guards.

Referee—Frank B. Parson, (Okla.)
Umpire—W. H. Cox (Normal)
Mrs. Lyda Preston Caldwell, physical director for women and head of expression department of the state university accompanied the team. The "Sooners" left this afternoon over the Oklahoma Central.

like everything else, have suffered a great deal from imitations. There are many reputable patent medicines, however, which are what they pretend to be, namely, the manufacture on a large scale of some famous prescription or formula due to the phenomenal and miraculous cures obtained. Being in this line of business we naturally know the imitations and carry only standard preparations of reputation and merit. We carry nothing which we can not conscientiously recommend and which we would not take ourselves under the same circumstances.

A SMILE AS A BUSINESS INVEST- MENT.

A smile costs nothing, but as a
dividend paying investment it beats
Standard Oil. It is not always easy
to chase the frown from one's face
and let it give place to smile, and
some never reach the point in the
matter of self control where they
can always do this, but the man who
does is the one who wins out. When
I go into any man's place of business
a smile from him informs me that
my presence is not distasteful to
him. If I am feeling blue I am not
wanting to be in company with an-
other who is experiencing the same
feeling, but prefer to meet a man
who has a smile of sufficient pene-
trating power to drive out the blue
devil tormenting me. If a man who
is feeling down on his luck comes
around me it is my place to greet
him with a smile that would indi-
cate to him that per se, after all,
he had overestimated his troubles
and that they will soon melt like a
fog before the summer sun. I have
spent many dollar with merchants
who had nothing more than their
smiles and good humor to attract
me to them. Somehow I was drawn
to them and I have no doubt that
hundreds of others were similarly
affected. Many a man has smiled
himself into fortune and into high
position when another by his side
failed because he was unable to
keep the signs of a frown from his
face. It is not always easy to keep
on smiling in the face of adverse or
exasperating circumstances, and some
of us with the kindest feelings to-
wards our fellows, are simply un-
able to come up to the standard, and
although deeply regretting such a
misfortune, must make the best of
it.

RATHER PECULIAR STATE OF AFFAIRS.

issued and sold. The title to the sites
on which the north and south
schools are built is in the city. Ma-
yor Little informs us that the deeds
have been in escrow for the past
two years awaiting the time when
the district would assume the \$15,-
000 of old bonds. It occurs to us
that the matter should be looked in-
to and finally arranged. The title to
the sites should by all means be
vested in the district which has so
much property on the lots, and on
the other hand, the district should
assume the bonds and meet them the
same as the ones issued since that
date. Its fair to all parties concern-
ed, and there is no time like the
present to arrange such matters.

Sturn's Magazine in New Form.
The current number of Sturn's
Oklahoma Magazine is the form of
Success and Saturday Evening Post,
and in every respect presents a much
improved appearance, evidencing
progress with age.

The page in the new form con-
tains more than double amount of
reading of the past, and best of all
with the change comes a reduction
in price from \$1.50 to \$1.00 a year.

The Press of Oklahoma has always
evidenced a pride in the home Ma-
gazine and we feel sure that it will
approve and commend the progress
and improvement evidenced shown
in this number. In our campaign for
"Home Products" we do not know,
any more deserving place for all of
the people of the state to show their
interest and sincerity in the move-
ment than by subscribing and pay-
ing for the home magazine, and in
sending it back to our old home.
Certainly the merchant who is spend-
ing so much time kicking about buy-
ing from the mail order house, and
then subscribes for a number of Ma-
gazines without including the one pub-
lished in and for Oklahoma is a joke
and he need not be surprised if his
customers note his inconsistency.

"Grant's Peace Policy" is the title
of the leading article in the current
number of the Magazine. It is by Dr.
Jesse R. Townsend, who for many
years was a part of all he writes.
The first installment of this series
indicates it is to be one of the best
glimpses into the past in Oklahom
we have ever read. The article will
probably continue throughout the en-
tire year. One picture accompanying
the first article is worth the price
of the Magazine, being a photograph
of all the eleven Quakers appointed
by President Grant as agents of the
various tribes of Indians in this sec-
tion, when the famous Peace Policy
was inaugurated.

Oklahoma's Natural Resources.

Oklahoma at the present time im-
ports practically all of the manu-
factured articles used in the state.
This is the natural penalty of the
shortness of the time which has
elapsed since the state was settled.
Agricultural development always pre-
cedes the development of the manu-
facturing interests.

However the time has arrived
when these conditions should change
and the next few years should see
a marvelous increase in the manu-
facturing industries of the state.

In the development of manu-
facturing the fuel supply is probably
the most important item and in this
respect, Oklahoma is certainly fortu-
nate. We have probably more natu-
ral gas in sight than any other state
in the union and only a very small
portion of the probable producing
field has been exploited. There is
certainly enough gas to supply sev-
eral times the present demand for
many years. The yield of petroleum
usually outlasts that of the gas for
many years and when this is ex-
hausted we have in reserve more
coal than any other state in the
southwest. The U. S. geological sur-
vey estimates the available supply
at 75,000,000 tons. The Oklahoma
geological survey is at present co-
operating with the United States
survey in preparing detailed maps
and reports upon the oil and gas
fields and the coal fields. When these
reports and others which are in pre-
paration upon clays, structural ma-
terials, gypsum, salt and lead and
zinc are published so that our re-
sources are brought to the atten-
tion of the public, a great develop-
ment of these industries should take
place.

value of all classes of mineral oil
sent out of the country approximates
100 million dollars a year.

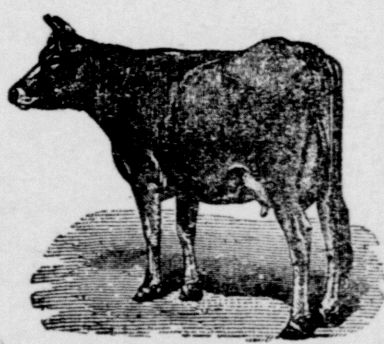

The United States no produces two-
thirds of the world's supply of pe-
troleum, the quantity produced in the
year just ended having been, accord-
ing to a statement recently issued
by the Geological Survey over 200
million barrels of crude oil, or more
than 8 billion gallons. Just what
quantity of refined oil was produced
from this more than 8 billion fallons
of crude oil produced in 1910 can-
not now be stated, but the bureau of
statistics of the Department of Com-
merce and Labor shows exports of
practically a billion gallons a year
of the refined illuminating oil, and
approximately 1 1-2 billion gallons
of oil of all classes, including in this
term illuminating oil, lubricating oil,
naphthas, and certain quantities in
the crude or unrefined state.

What is the value of this more than
8 billion gallons of mineral oil pro-
duced in the United States last year?
Probably 175 million dollars, though
this is necessarily an estimate. What
is the value of the finished article,
the illuminating oil, the naphthas, the
gasolene, the lubricating oil, the par-
affin and other grades manufactured
from this raw product? This can only
be estimated, though the census of
1905 shows the value of the prod-
ucts of "petroleum refining" in 1904
to be 175 million dollars. What is the
value of the mineral oil exported?
The bureau of statistics shows that
the total value of the mineral oil ex-
ported in 1904 was 80 million dollars,
and in 1908 was 109 million of which
76 million was illuminating oil. 19
million lubricating oil; 4 1-2 million
naphthas, and other lighter products
of distillation; 6 1-2 million dollars
crude oil and about 3 million dollars
residuum. In 1909 and 1910 the value
of the exports was slightly less than
in 1908, due chiefly to a fall in ex-
port prices, though the quantity al-

so showed a slight decline in 1910
when compared with 1908.

What becomes of this billion and
a half gallons of our petroleum pass-
ing out of the country? It goes, as al-
ready indicated, to a hundred dif-
ferent countries, colonies and is-
lands. Scarcely a country in the
world can be named to whom it is
not sent. Even Russia, which was
for years our chief rival in the
world's petroleum markets, now takes
considerable quantities of American
lubricating oil made from petroleum,
and her Asiatic possessions take al-
so certain quantities of our illu-
minating oil. The largest customer for
our illuminating oil is England, to
which the exports of 1910 amounted
to about 180 million gallons, valued
at more than 8 million dollars. Ger-
many ranks second, the quantity sent
to that country in 1910 being about
108 million gallons; to Netherlands
about 100 million gallons; China
about 80 million; Japan about 45
million; and even British Indian
about 32 million gallons. In fact prac-
tically every country in the world
receives greater or less quantities of
our petroleum. The list of countries
to which it is sent includes Green-
land, Malta, and other of the Med-
iterranean islands; the Azores and
Madeira Islands, Turkey in Europe
and Asia, Egypt, Siam, Korea, Hong
Kong, the Straits Settlements, Dutch
East Indies, French East Indies;
French, German and British Oceania;
the Philippine Islands, Madagascar;
Italian, German, French, Portuguese,
British and Spanish Africa; British
Danish, and Dutch West Indies;
Haiti, Santo Domingo, the Central
American states, and every country
of South America.

Not only is our kerosene popular
in the homes of all parts of the
world, but American gasolene ex-
ported under the general title of
naphtha, is furnishing power for mot-
or boats, automobiles and flying ma-
chines in various sections of the
world, while lubricating oil export-
ed goes to more than eighty coun-
tries, and is valued at more than 20
million dollars a year.

NOTES FROM RAVIA GOLD FIELD.

Specimens of Ore Make Fine Show-
ing of Gold and Platinum.

Geo. D. Wilkes and H. Crider, the
main springs of Mannsville, were in
Ravia Tuesday and Wednesday. They
were showing some very fine spec-
imens of mineral which Wilkes says
he has in large quantities near
Mannsville.

The evenings at the hotel are
spent in comparing specimens of
ore taken from different shafts dur-
ing the day.

Harris & Wilkinson are getting fine
assays at their Mill Creek shaft. The
last assay showed \$10.50 gold and
\$10.60 platinum or a total of \$21.10
per ton at a depth of 18 feet.

Mr. Arrington has a good silver
lead which runs better than \$40 to
the ton, just west of town.

Harris & Wilkinson are staking
another shaft northwest of town with
good showings.

Mr. McAlister has also struck pay
ore of silver, gold and platinum.

J. E. Harris has worn out all the
pockets in his clothes, and is now
bringing rock into town in the buggy
box.

J. E. McKee says he has got it
bad. But we do not know whether he
meant the gold in the mine or the

FOR YOUR HAIR.

Here Are Facts We Want You to
Prove at Our Risk.

When the roots of the hair are
entirely dead and the pores of the
scalp are glazed over, we do not be-
lieve that anything can restore hair
growth.

Rexall "93" Hair Tonic acts sci-
entifically, destroying the germs
which are usually responsible for
baldness. It penetrates to the roots
of the hair, stimulating and nourish-
ing them. It is a most pleasant toilet
necessity, is delicately perfumed and
will not gum nor permanently stain
the hair.

We want you to get a bottle of
Rexall "93" Hair Tonic and use it as
directed. If it does not relieve scalp
irritation, remove dandruff, prevent
the hair from falling out and pro-
mote an increased growth of hair
and in every way give entire satis-
faction, simply come back and tell
us and without question or formal-
ity we will hand back to you every
penny you paid us for it.

We lend our endorsement to Rex-

HAPPY RESULTS.

Have Made Many Ada Residents Enthusiastic.

No wonder scores of Ada citizens grow enthusiastic. It is enough to make anyone happy to find relief after years of suffering. Public statements like the following are but truthful representations of the daily work done in Ada by Doan's Kidney Pills.

Adolph Ridel, S. Sixteenth St., Ada, Okla., says: "I suffered from kidney disease for a couple of years and Doan's Kidney Pills rid me of every symptom. Since using them I have been free from the dull ache through my loins and the sharp, shooting pains across my kidneys that had frequently caused me so much misery. I procured Doan's Kidney Pills at G. M. Ramsey's Drug Store and am always glad to give them my recommendation."

For sale by all dealers. Price 50 cen's. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

SPORTING NEWS.

T. O. Cullins, Editor.

A Remarkable Play.

T. O. Cullins, who is one of the scouts for the normal ball team, and who in his younger days played ball on every vacant lot in Memphis, Tenn., including the boundless territory of Kentucky, declares that none of the stories told about Tennessee state in the long ago can by any possibility be exaggerated, especially around Franklin, Tenn. The country was new then, says Cullins. Base ball was a good deal of an innovation and lots of players who came to the front had never seen a real game of base ball, knew nothing of its manifold possibilities. One day Nashville and Franklin were playing at Franklin and one of the most peculiar plays occurred. I'll wager a little money that it has never been, and never will be duplicated. Bro. Haynes on the home team had recently been presented by the fans with a gold watch for a timely home run hit, and mighty proud he was of it. When the players would go out for practice or to play the game, Bro. Haynes would be asked to leave his watch in the club house but never would he consent. Well, that day the game was to be played Bro. Haynes with his gold watch got excited by the glamour and graces of a beautiful young girl fan, and on his day he had made an engagement to meet her at 5:30 p. m. and take her to dinner. The game dragged dreadfully, and it so happened that at 5 o'clock only 6 innings had been played.

Bro. Haynes with the new gold watch was getting nervous, his admirer was a wealthy girl and she could not afford to scorn a man who disappointed her in any way.

In the 7th inning a ball was batted by a Nashville player to center field where Bro. Haynes was playing. There was a man on 2nd at the time. But just then Bro. Haynes had drawn out his watch to note the time. He was thus engrossed and was thinking about his important engagement, when his captain howled to him:

"Shooter home Haynes."

Bro. Haynes did shooter home, not the ball that had been batted out to him, for a double and was even then lying at his feet, but the watch that he had been holding in his hand.

With all his might and main he hurled the watch home.

It didn't go as straight and true as a base ball would have gone of course, but the catcher got it in plenty of time for the put out as he swung around and touched the runner with the watch he played the fool and shouted: "What's this?" holding up the time piece.

Umpire, players and spectators gave quick attention and the cost of the center field's lapse of thoughtfulness was soon known to everybody, but the play would have gone through alright had not the catcher been an absolute dunce—after this Bro. Haynes was suspended and black balled for ever of base ball.

ADA SOCIAL EVENTS.

Entertainment by Mrs. Tom Hope. Thursday afternoon Mrs. Tom Hope entertained a number of guests in honor of her house guest Mrs. Woodhouse and Mrs. and Miss Murchison. Ten tables were arranged for the popular game of 42 and there was some good natured rivalry for first honors in the games which followed. After being entertained as only their charming hostess knows how to entertain, the assembled guests partook of the dainty refreshments served consisting of cream chicken, sweet meats, pickles, sandwiches, coffee, apricot ice and fruit cake.

In Honor of Mrs. Woodhouse. Wednesday afternoon, Mrs. Jno. W. Beard received in honor of her guest, Mrs. R. L. Woodhouse, of Denver. Mrs. Woodhouse, having once lived in Ada, had many friends who were pleased to meet her again. Mrs. Beard's home was beautifully decorated for the occasion. The dining room was especially pretty in pink, with an immense bouquet of pink roses on the table. The guests were greeted by Mrs. Hardin, who presented them to the receiving line, Mesdames Beard, Woodhouse, Hope and Mays. Mrs. Tobin directed to the dining room, where Mesdames Simpson and Chauncey were at the table and poured chocolate and coffee, served with wafers and whipped cream with cherries. Mesdames Thornton and Mason served. The ladies in the register room were: Mesdames Ebey, Haynes, Frierson, Galbraith and Miss Nixon. Seventy five registered, and quite a number of regrets were received on account of sickness.

With Mrs. Charles T. Barney. Judge and Mrs. Charles T. Barney entertained a large company of friends, last evening, at their home, corner of Ninth and Hope avenue; there being twelve tables, equally divided between the popular games of Five Hundred and Forty-Two. The guests were: Mr. and Mrs. Beck, Mr. and Mrs. Beard, Mrs. Bills, Mr. and Mrs. Creveling, Mrs. Croxton, Mr. and Mrs. Duncan, Mrs. Drummond, Mr. and Mrs. Drummond, Miss Edmiston, Mr. and Miss Epperson, Mr. and Mrs. Frierson, Miss Fulton, Mr. and Mrs. Galbraith, Mr. and Mrs. Hope, Mrs. Hart, Mrs. Hale, Doctor and Mrs. LeFevre, Mr. and Mrs. Lasater, Mr. and Mrs. Morrison, Mr. Manville, Mr. and Mrs. Mays, Mrs. Mason, Mr. and Mrs. Duke Stone, Mr. and Mrs. Simpson, Mr. Schulte, Miss Gertrude Thompson, Mr. and Mrs. Torbett, Mrs. Woodhouse.

Mrs. Croxton, Mrs. LeFevre, Mrs. Hale and Mrs. Drummond assisted the hostess in serving a course luncheon. While the guests were assembling and during the luncheon, a delightful program of music, arranged by Mr. T. B. Barney, was rendered by a sweet toned Edison phonograph "Amberol Records," ending with "Home, Sweet Home," at midnight.

The Military Atmosphere of San Antonio

gives zest and picturesqueness to the life in this delightful winter resort. Fort Sam Houston, in the suburbs, is the largest military post in the South; besides, a beauty spot with a wealth of historical associations.

But it is the climate that is by far the most attractive feature of San Antonio. The invigorating air, dry and warm, the altitude and the splendid natural drainage, all combine to make a perfect combination of sunny winter weather.

"In Sunny San Antonio"—my new booklet—will give you an entirely new idea of the attractiveness of this delightful winter resort. Send for it today—it's free.

After the game the hostess served tempting refreshments. The guests of this delightful party were Mesdames Hope, Tobin, Thompson, Neathery, Barney, Lassiter, Croxton, Mays, Wintersmith, Drummond, Frierson, Austin, Howe of Chicago, Beck, Murchison of Vernon, Tex., Conn, Woodhouse of Denver, Maddox, Hart, Mason, Blenn, Higgins, Misses Epperson, Mason and Murchison.

ALLEGED JEWEL THIEF CAPTURED IN OKLAHOMA CITY

Woman Who Gave Detectives Slip at Ada Arrested Yesterday.

Oklahoma City, Jan. 28.—Charged with the theft of diamonds in Shawnee, Okla., valued at more than \$1,000, Miss Ethel Hoffman, alias Miss Ethel Bishop, was arrested in the postoffice at Oklahoma City Friday night by Detective John Buford of the secret service department. The woman had gone to the postoffice to have her address changed.

The woman turned the jewels over to the secret service. She said that they were given to her.

She was released on her own recognition at 9 o'clock Saturday morning. The charge against her at the local police station is "a fugitive from justice."

Barham a Worker.
Wewoka, Okla., Jan. 28.—Hon. J. S. Barham, floral representative in the lower house of the legislature from Seminole and Pontotoc counties came in Saturday night from Oklahoma City and spent the day with his family and friends.

Mr. Barham is one of the working members of the legislature, and is going to make a reputation for himself and reflect credit upon his district before his term of service expires.

He is not a grand-stand player. Does not indulge in pyrotechnics nor bombast, but goes about his work in a quiet, matter of fact way, and conscientiously pursues it until he accomplishes the task laid out. In the committee room Mr. Barham is strongest, and in that way he is recognized as a strong aid in the shaping of legislation of benefit to Seminole and Pontotoc counties, as well as the state at large.

His clientele down here will watch his course with interest, and feel that in him they have a clean, conscientious and able representative.

Ends Winter's Troubles.
To many, winter is a season of trouble. The frost bitten toes and fingers, chapped hands and lips, chilblains, cold sores, red and rough skins, prove this. But such troubles fly before Bucklen's Arnica Salve. A trial convinces. Greatest healer of burns, Bolls, Piles, Cuts, Sores, Eczema and Sprains. Only 25c at Ramsey Drug Co.

Trouble Without Borrowing.
Never borrow trouble. Get elected a member of the school board or the town council, and the people whom you attempt to serve will hand you all the trouble you are looking for. —Wapanucka Press.

Mortuary.
Mrs. Addie Williams died of dropsy at 9 o'clock this morning at the home of her son W. M. Frantz on West 12th street, at the age of 51 years. The remains will be interred at Rosedale tomorrow.

Accidentally Shot Himself.
Stratford, Okla., Jan. 28.—J. B. Carlton, a prominent farmer living six miles south of Stratford had the misfortune of shooting part of his foot off last Tuesday afternoon with a shot gun.

Mr. Carlton was out in his yard talking to a neighbor with the gun resting on his foot when the gun was accidentally discharged, shooting off the front part of his foot.

APPEARING OLD

Acts as a Bar to Profitable Employment.
You cannot afford to grow old. In these days of strenuous competition it is necessary to maintain, as long as possible, one's youthful appearance. It is impossible to do this without retaining a luxurious growth of hair. The presence of Dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair until it causes total baldness. Newbro's Herpicide is the only known destroyer of this pest, and it is as effective as it is delightful to use. Herpicide makes an elegant hair dressing as well as Dandruff cure. Accept no substitute—there is none. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

TO ADVERTISE ENOUGH

IS NOT ALWAYS POSSIBLE--BUT SOME PROGRESS IN THAT DIRECTION MAY BE MADE!

"Enough" advertising would give your business an immediate "jump"—give it an impulse forward which nothing could check.

If, therefore, you COULD advertise "enough," your prosperity-problem would be quickly solved.

What you CAN DO NOW is to reach out in the direction of adequacy in your advertising—"sacrifice" other things, in your desire to keep pace with the best and the biggest advertisers in your line.

If you make "other things" pay for the advertising up to the point of partial adequacy, after that the advertising will pay for the other things—for ALL of the other things.
